

# Durable Solution & Relocation Survey

## Introductory Statement and Consent

This survey is part of the Provincial Community Consultation on Displacement, Durable Solutions, and Relocation. It is designed to collect qualitative information through focus group discussions (FGDs) and key informant interviews (KIIs) with community members, leaders, and provincial stakeholders. The survey explores community experiences of climate change, environmental risks, displacement, mobility, governance structures, and potential relocation scenarios. The information gathered will support evidence-based planning, policy dialogue, and the identification of durable solutions that are community-informed, inclusive, and culturally appropriate.. Respondent agrees to participate in the survey

☐ Yes

☐ No

Respondents consent to photos being taken during this visit

☐ Yes

☐ No

## A. ENUMERATORS INFORMATION

Enumerators Name

## B. RESPONDENTS INFORMATION

Respondents Name

---

Respondents Gender

☐ Male

☐ Female

**Province**

- ☐ Torba
- ☐ Sanma
- ☐ Penama
- ☐ Malampa
- ☐ Shefa
- ☐ Tafea

**Area Council Name**

---

**Community Name**

---

**Interview Date and Time**

yyyy-mm-dd

hh:mm

---

---

**1. COMMUNITY PROFILE**

**1.1** How would you describe life in the community today? What are the main challenges? What are the positive aspects?

---

**1.2** What are the governance structures? (e.g., village council, number of nakamals, presence of a paramount chief)

---

**1.3** When decisions need to be made, how does the community make them? Can you describe a typical process or give an example?

---

**1.4** Does the government engage with chiefs through the governance structure?

- ☐ Yes
- ☐ No

**2. EXPERIENCE OF CLIMATE CHANGE, ENVIRONMENT AND DISPLACEMENT**

**2.1** What climate or environmental changes are you observing?

---

**2.2.** What changes have you noticed over time? Are these hazards happening more often or with a pattern?

---

**2.3** What impacts do these hazards have on the community? (e.g., damage to infrastructure, homes, beaches, crops; psychological impacts)

---

**2.4 What are the steps/ solutions the community has taken or would like to take to address these impacts?**

---

**2.5 Is there an evacuation centre or safe shelter in the community?**☐ Yes☐ No**a. What type is it?**

---

**b. How many people have used it during disasters?**

---

**c. Has it been damaged?**☐ Yes☐ No**d. Is it in good condition or in need of repair/retrofitting/expansion?**

---

**2.6 What are your views about climate change and its future impacts?**

---

**a. How much do you understand about climate change?***(Would you like more information?)*

---

**3. MOBILITY AND RELOCATION TRENDS****3.1 What is the approximate population of the community?**

---

**a. What are the main livelihoods?**

---

**b. What key infrastructure and services exists here?**

---

**3.2 What are the general patterns of population movement? Who is staying, leaving, or returning—and why?**

---

**3.3 Have environmental changes caused any shifting of houses or infrastructure? (e.g., moving homes away from the shoreline)?**☐ Yes☐ No

a. When, how, and where did this happen?

---

b. How was the process managed?

---

3.4 Have people temporarily or permanently moved away due to environmental impacts or other reasons?

---

3.5 Which groups are moving? (e.g., young people investing in housing elsewhere) and Why?

---

a. What risks or challenges do they see?

---

3.6 When relocation happens, who decides to move?

---

a. How is it organized? Does anyone support the process, or is it a family decision?

---

3.7 What challenges do people face when they move?

---

a. Do they rebuild their homes themselves?

☐ Yes

☐ No

b. Do you expect them to return in the future?

☐ Yes

☐ No

3.8 Has full community relocation ever been discussed?

☐ Yes

☐ No

a. what is the history of these discussions?

---

## 4. CUSTOMARY GOVERNANCE

4.1 How active are customary governance systems (Island Council, Area Councils of Chiefs, community chiefs)?

---

4.2 Do chiefs coordinate and meet regularly?

☐ Yes

☐ No

**a. Are they respected?**

- ☐ Yes
- ☐ No

**4.3 How does the government usually interact with chiefs, and on what issues?**

---

**a. Are there many disputes?**

- ☐ Yes
- ☐ No

## 5. CUSTOMARY LINKS AND CONNECTIONS

**5.1 Is the land system in this area patrilineal or matrilineal?**

- ☐ Patrilineal
- ☐ Matrilineal

**5.2 What areas do you have cultural or customary connections with?**

*What are these based on—historical trading, origin stories, kastom maret, etc.?*

---

**a. Are these connections still active?**

- ☐ Yes
- ☐ No

**5.3 How are different parts of island connected culturally?**

---

**a. Do different areas play different roles?**

- ☐ Yes
- ☐ No

**b. Is there somewhere you could go in times of crisis? Do you have a kastom rod for emergencies?**

- ☐ Yes
- ☐ No

**c. is the kastom rod still active?**

- ☐ Yes
- ☐ No

**5.4. Do families in this community have modern links to other islands or provinces in Vanuatu?**

- ☐ Yes
- ☐ No

a. Where?

---

b. What maintains these links?

---

c. Are they strong enough to be relied on for future relocation?

☐ Yes

☐ No

## 6. FORMAL GOVERNANCE

6.1 How active are the Area Administrator and Area Council in this community?

---

a. Do you interact with the Community Liaison Officer?

☐ Yes

☐ No

b. How often?

---

c. Do chiefs or leaders communicate with them?

☐ Yes

☐ No

d. What government connections do you have?

---

## 7. PROJECTS IN THE COMMUNITY

7.1 Has the community, government or other organizations supported any disaster risk reduction or climate adaptation efforts here?

☐ Yes

☐ No

a. What are they, where are they located, and what has been the impact?

---

## 8. DEVELOPMENT IN THE COMMUNITY

8.1 What do you think life will be like for the younger generation in the future?

---

a. What hopes and concerns do you have, especially regarding risks or community direction?

---

**8.2 How would you describe community cooperation and coordination?**

---

**a. Does the community generally work well together, or is unity challenging?**

---

**9. SEASONAL WORK****9.1 How many people from the community have participated in seasonal work, are currently participating, or plan to go again?**

---

**9.2 What changes has seasonal work brought? Is there more cash in the community? What are workers investing their income in? (e.g., houses, land, businesses).**

---

**a. Are more people interested in going?**☐ Yes☐ No**b. Are they choosing short-term or multi-year visas?**

---

**9.3 Does seasonal work have any positive or negative impacts on the community's disaster preparedness?**☐ Positive Impact☐ Negative Impact**a. Please Explain the positive Impacts**

---

**b. If Negative, please explain**

---

**10. FUTURE RELOCATION SCENARIO****10.1 What is the history of this community? When did people first settle here, and how did the community form?**

---

**10.2 If the community became completely uninhabitable, what steps would you take on your own, without government support?**

---

**10.3 Would the community prefer to move together or allow families to decide individually?**

---

**10.4 What relocation site options exist—your own kastom land, land belonging to another tribe, or land that would need to be purchased?**

---

**10.5 Could you use any cultural/customary connections to support relocation?**

- ☐ Yes
- ☐ No

**10.6 Which relocation option feels most secure? A. What would you need to feel safe from future displacement (e.g., kastom agreement, land title, lease)?**

---

**10.7 What factors matter most when selecting a relocation site? (Proximity to services, livelihoods, ancestral connections, family networks, employment, etc.)**

---

**10.8 How would the community make a relocation decision? Would you prefer to relocate early or wait for hazards to worsen?**

---

**10.9 Which external partners would you trust in the decision-making process?**

- ☐ Chiefs Council
- ☐ Provincial Government
- ☐ Area Council
- ☐ NGOs
- ☐ UN
- ☐ Other

**10.10 What needs to be in place to ensure everyone can participate in decision-making and planning?**

---

**10.11 What do you see as the biggest barriers to relocation?**

---

**a. What support would be needed?**

---

**10.12 What important assets or cultural connections would you fear losing? (e.g., houses, crops, livestock, graveyards, tabu sites)**

---

**10.13 What roles should government, community groups, churches, chiefs, tribes, women, and others play in relocation?**

---

**10.14 What information do communities need to make informed decisions and provide feedback to government/organisations?**

---

**10.15 What are the key issues for protecting vulnerable groups (women, youth, people with disabilities)? Who might be most vulnerable during relocation, and how can their needs be met?**

---

**10.16 What kind of support is needed after relocation, and who should provide it?**

---

**10.17 Based on any past relocation experiences, have there been disputes with host communities or landowners?**

☐ Yes

☐ No

**a. What processes helped resolve them?**

---

**10.18 Is there significant new residential development nearby?**

☐ Yes

☐ No

**a. Who are the developers?**

---

**b. How is land divided and sold?**

---

**c. What are typical land prices?**

---

**d. Who are the usual land buyers?**

---

**10.19 If all the other steps are insufficient and the community became completely uninhabitable, what steps would you take on your own, without government support?**

---
